- 12/12/05 **C04-12-012** - California Alliance for Utility Safety and Education, Complainant vs. San Diego Gas & Electric Company and the City of San Diego, Defendants; **Presiding Officer's Decision.**
We find that, in planning and constructing the 30th Street 138 kV underground conversion project in San Diego (Undergrounding Project), defendant San Diego Gas & Electric Company (SDG&E) did not comply with the mandates of the California Environmental Quality Act (CEQA), Pub. Res. Code § 21000 *et seq.*, and General Order (GO) 131-B. Since the Undergrounding Project has already been built, however, we will not now require SDG&E to take any remedial steps with respect to the requirements of GO 131-D or CEQA for the Undergrounding Project. We also find that SDG&E complied with the requirements of Decision (D.) 93-11-013 regarding no-cost and low-cost measures to mitigate the impact of electromagnetic fields (EMF) in its construction of the Undergrounding Project.

Test-Year Adjustment Mechanism.

Summary: LATE FILED. On December 2, 2005, Kevin Lynch, Managing Director – Government Affairs, PacifiCorp, met with Peter Arth, advisor to Cmmr. Peevey, and Robert Lane, advisor to Cmmr. Bohn, in two separate meetings in San Francisco. Also present were Jeff Larsen, Manager – Revenue Requirement, and D.J. Smith, Sacramento Representative, for PacifiCorp. Lynch stated that the need for an increase in revenues stems from a variety of sources including higher power costs incurred since the last general rate case decision, as well as increases in benefits costs. Lynch also explained the anticipated timing of the proceeding leading to a decision in December 2006. Lynch and Larsen described the company's proposals for adoption of several post-test year rate making mechanisms. Finally, Lynch and Larsen discussed an issue arising with a subset of PacifiCorp's irrigation customers that involves the anticipated termination of a fifty-year rate contract in April 2006.

| 12/9/05 | A04-12-014 | Southern California Edison Company, for authority, among other things, to increase its authorized revenues for electric service in 2006 and to reflect that increase in rates. |
| | I05-05-024 | Order Instituting Investigation on the Commission's own motion into the rates, operations, practices, service and facilities of Southern California Edison Company. |

Summary: On December 7, 2005, John P. Hughes, Regulatory Operations Manager of Southern California Edison Company (SCE), met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present was Russell G. Worden, SCE's project manager. The SCE representatives described the SCE electric system, and explained that the system requires future investment greater than level of investment in the recent past and that only by stepping-up such investments will SCE be able to preserve current levels of electric system reliability. When discussing the subject of SCE's incentive compensation, Hughes and Worden pointed out that disallowing SCE's entire request, as proposed by the Office of Ratepayer Advocates (ORA), would place company employees eight percent below market in their compensation. Hughes and Worden stated that the Consumer Price Indexing methodology for recovering the revenue requirement in years between general rate cases does not reflect SCE's cost of doing business. Hughes and Worden noted that in this proceeding the ORA eliminated large capital projects from its averaging methodology, leaving SCE with no cost recovery for large projects, such as the Infrastructure Replacement initiative.

Summary: On December 7, 2005, Dana Appling, Director of the Office of Ratepayer Advocates (ORA), met with Cmmr. Bohn, in San Francisco. Also present were Stephen St. Marie and Lindsay Brown,

advisors to Cmmr. Bohn, Robert Kinoshian and Mark Pocta of the ORA, and Diana Lee of the Legal Division. Written material (attached to the notice) was used. Pocta explained that the proposed decision reflected an upward bias in the range of Return on Equity that was unprecedented and inconsistent with business and financial risks that the utilities face today.

Summary: On December 9, 2005, Dana Appling, Director of the Office of Ratepayer Advocates (ORA), met with Aaron Johnson, advisor to Cmmr. Grueneich, in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, and Mark Pocta, Program Manager, and Laura Tudisco, Staff Counsel, for the ORA. Tudisco stated that ORA is urging the Commission to adopt the proposed decision of ALJ Halligan and not to adopt the alternate decision which grants Pacific Gas and Electric Company (PG&E) rate increase for pension contributions in violation of basic due process protections. Pocta and Appling expressed their concerns that the alternate adopts PG&E's opinions as to the funding status of PG&E's pension trust without allowing other parties to express their views. Pocta and Appling noted that the appropriate level of funding is a complex policy matter that should be considered in the general rate case.
